CR5

WITH REMOTE REMOTE

COMBINATION LASER RECEIVER

CR5 COMBINATION RECEIVER WITH REMOTE DISPLAY ...

Remote capability improves productivity by allowing jobsite functions to be performed faster and more efficiently. With the convenience of a remote display, the operator is able to view grade information from within the cab.

Ideal for situations where the receiver is out of sight of the operator, such as trenchers, scrapers and excavators.

CR5 with Remote Display:

- compact, completely self-contained
- rugged, weather-resistant housing
- quick, secure mounting
- portable, easy to move from one machine to another

NEW WIRELESS REMOTE DISPLAY:

Enjoy the convenience of wireless technology - now available for the CR5 Receiver. Because it's wireless, the setup is easy, with no cables to worry about.

Ideal for any machine.

CR5 with Wireless Remote Display:

- cable-free flexibility
- 30 m (100 ft) working range
- low battery indicator
