

22X Magnum Line Level & Transit-Level with *Laser Plummet*

These units eliminate the need for a plumb bob and rechecks, for fast and easy setup over a point. Instrument features are similar to above, plus 5/8" x 11 tripod mounting thread, and three leveling screws. Model 300LP has a 1° vertical arc and two leveling vials.

Laser plummet features a bright 635nm diode (Class II) with 3 element glass lens. Laser dot diameter is ± 2mm @ 2m (6'). Ten minute sensitivity provides ±1mm plumbing accuracy.

- **Working Range:** 250 feet (76M)
- **Accuracy:** 1/8-in at 100 feet (3mm at 30m)
